

Dear Rotary Family,

I hope that this letter finds you all in good health. Thank you again for your kindness and for your scholarship through Project Amigo which has allowed me to continue with my studies.

Everything here is very calm and beautiful as always. It is a little hot out but still very pretty. Please know that I am very happy that the day that I will graduate is not far away. To finish my race I still need to spend time studying. My parents share my happiness and tell me they are very proud of me and the time I have spent in school which is something they were not able to do, this is why they are very thankful to all of you for giving me the support to continue with my schooling. You all are the reason I am able to continue my studies and I send you all a big hug and a million thanks.

Marisol Hernandez Garcia
