

The Rotary Club of White Rock as just approved a \$50,000 Rotary International Matching Grant for a water and sanitation project in Aba, Nigeria.

This project has been put together by and two Rotary Clubs in Aba, Nigeria, and myself (Clifford Grant). I am now responsible for raising \$15,000.00 for this project - a water well feeding into new toilets, basins, urinals and showers for students at a boys' school. During the political turmoil in Nigeria over many years the infrastructure was not maintained and fell into disrepair, including educational facilities. This academic school has approximately 600 students, boys from our grade 7 to 12. They desperately need toilets, basins and showers.

This is a current toilet.

Location of toilets, urinals, basins and showers.

I am requesting donations from Rotary Clubs, businesses, organizations, and individuals to make this goal. My Rotary Club has given \$2,000.00. The Rotary Clubs in Aba, Nigeria, are funding their share.

All donations over \$20.00 are eligible for a tax receipt from The Rotary Club of White Rock.

Kindly send the cheques to me, made out to The Rotary Club of White Rock, with the subject line reading The Nigeria Wilcox Secondary School Project. Please make sure your return address is included. The sooner the better as I am told there will be price increases within a couple of months.

I am planning to set up a blog for this project.

You may wish to share this with like-minded organizations and individuals.

Thank you for your consideration in supporting this project.
