Solution to My Concern:

The Starfish Pack Program has been
a help to our family as a single
mother it helps stretch our food budget
as well as having healthy food for
my children. I don't receive any
financial support from my child's
father, so this helps out a lot especially
when unexpected things come up such
as field trips or unexpected expenses.
I also talk to my daughter about
how people like to help out for those
less fortunate as well as being grate-
ful for this extra help. It is very
much appreciated.

Yours truly,
Rosita
