UConn Health Center

&

Connecticut Children's Medical Center

Neonatal Intensive Care Units (NICU's)

Help new parents and family members keep watch of their critical care newborns
in the NICU with webcams (secured for private use only).

Webcams maintain the connection with the newborn 24/7 from a laptop, computer
or even a smartphone.

Separation can be emotional. Every moment is precious!

Please support our effort to fund 72 NICU webcams at

UConn & CCMC.
