

I joined Rotary for business and stayed to be part of changing the world. It is an honor to be associated with the people in this club.

We work for the benefit of others, have fun and the friendships will last forever.

District Governor Randy Brooks

I first learned about Rotary back from my hometown in northern Illinois. That group of Rotarians were the leaders of the community.

And that's all I really knew about Rotary. That and they met for lunch every week. When I moved to Marana, my boss told me she wanted me to join Rotary and I was so excited.

I was going to have breakfast with the movers and shakers in the community. And then I attended the Marana Rotary meetings and saw that it was so much more.

I saw what it means to be a Rotarian. It's service above self. We are a small but very active group of people, of all ages and backgrounds, who want to make a difference in our community and in the world. And by doing so, we are making a difference in our own life. I will be forever changed because of my Rotary family.

They have made me strive to become a better person - every day.
