Board Meeting

Our first board meeting for the new year will be on Wednesday July 7th. 5:30 pm At Trapper Petes.

Thank you to Division Chief Ken Klatt from the Cloquet Area Fire District for his talk on Automatic External Defibrillators (AED) last week. Ken gave us some great information on how the heart functions as well as how the AED works. Contrary to most beliefs we do not jump start the heart when it is shocked.

The heart is shocked to stop a rhythm that is not perfusing the body to give the heart the opportunity to start pumping properly. The introduction of AED's into public areas has increased the survival rate in heart attack victims. They are a great tool we need to get out into the community more. For more information on AED's or CPR/AED training talk to Jeff Nies or Ken Klatt.
