

**The Rotary Club of Norfolk Sunrise**

**Presents**

**Outdoor Bistro Table and Stools.**

**Made from shutters and wooden side of a waterbed.**

**Creative design: Susan Thompson; Rotarian.**

**Master Woodworker: Jim Peters, Rotarian;** He nailed the shutters together, making the stools and base for the table, he also made the table top and varnished it.

**The Team:** I couldn't have done this project without their help

**Bob Thompson** –found the awesome fabric.

**Gerry Hamell** – supplied the wood and cut it to specs for the stool seats.

**Helga Stuermer** – Rotarian and friend, helped painting the base of the table and stools.

**Linda Peters** - assisted with the upholstering of the stools

If you are wondering what I did besides coming up with the idea, I filled in the nail holes, sanded, primed and painted the shutters. I bought all materials, made place mats and set the table.

Thanks for the opportunity. I had lots of fun doing this project.

Yours in Rotary: Susan Thompson
